

## Ice Cream Challenge

's challenge chart

Add a sticker to your chart as you complete each Ice Cream Challenge module to track all the sweet STEM skills you're learning.

### STEM skills

Teamwork	Communication	Open mindedness	Creativity	Problem solving	Analysis
Working together with others to achieve an end goal and harnessing each other's expertise and strengths.	Passing on information effectively, actively listening, understanding instructions, and asking pātai.	Being open to new experiences, considering and accepting different ideas and learning about the world around you.	Taking risks – using inventiveness and outside the box thinking to bring new ideas to life.	Thinking innovatively, being resilient, never giving up and trying lots of ideas to find the best solution.	Being observant, collecting and interpreting data, detecting patterns, brainstorming ideas, and making decisions based on the results.
