

I wonder what makes ice cream yum?

Wonder
Project

Ice Cream Challenge

The Wonder Project is the industry-led, free programme for schools, designed to inspire young Kiwis with science, technology, engineering and maths (STEM).

In Aotearoa, there's a huge skills shortfall in STEM. We simply don't have enough young people pursuing careers in these fields. The Wonder Project aims to change that with its hands-on school programmes, designed to spark wonder and awe in young Kiwis and get them excited about a future STEM career.

Being a STEM superstar is awesome – are you ready to inspire the next generation?

NOURISHED BY

Ice Cream Challenge

Year 5–6, Ages 8–10, Term 3

Let's chill! Ākonga experiment with flavour, texture, and techniques, using dairy or alternative ingredients to create their own sweet treat. In rōpū, they'll explore states of matter, food composition and performance properties and discover the science behind ice cream innovation.

If you're a STEM professional, we'd love you to join our network of Wonder Project Ambassadors. There's no need to be a food scientist to get involved! You'll get the training you need to support a kaiako in their classroom, and access to our online Learning Hub which contains a challenge guide and all of the content your matched class will learn throughout the challenge.

The challenge takes ākonga 1–2 hours per week for 6–8 weeks to complete. But you only need to be available for at least 3 hours during the challenge.

Being an ambassador is a great way to:

- give back to your hapori
- inspire a diverse range of ākonga
- future-proof the STEM industry
- build your communication and presentation skills
- complete hours towards your continuing professional development
- lift the profile of the company you work with.

Become a Wonder Project Ambassador today at **wonderproject.nz**

   @WonderProjectNZ

"It's truly inspiring, seeing our future generation engaged in STEM and thrilled to be Wonder Project kids!"
